2017 Annual Meeting

November 15—17, 2017 Asheville, North Carolina

Speakers

Thursday, November 16, 2017

Steven Perlman, DDS, M.Sc. D., DHL

Sponsored by Special Olympics

Steven P. Perlman, D.D.S., M. Sc. D., D.H.L. is the 2013 Holyoke Award recipient for his dedication to improving the lives of children and adults with physical and intellectual disabilities. In addition to treating patients at his dental practice in Lynn, Dr. Perlman is a Clinical Professor of Pediatric Dentistry at the Boston University Goldman School of Dental Medicine and the Global Clinical Director of Dentistry for Special Olympics. He is a fellow of the Academy of Dentistry for Persons with Disabilities, a fellow of the American College of Dentists and a Diplomate of the American Board of Special Care Dentistry.

8:30—10:30 AM Medical Immobilization and Protective Stabilization

This session will cover the history of guidelines regarding the issue of “Restraint” and the current " Medical Immobilization/Protective Stabilization "will be discussed. We will review the original ADH, SCD Guidelines, The American Academy of Pediatric Dentistry Guidelines, and the recent American Academy of Developmental Medicine and Dentistry Guidelines. The objective will be for Dental Professionals to have a comfort level in the use of MI/PS in delivering treatment to their patients.

2017 Annual Meeting

November 15—17, 2017 Asheville, North Carolina

Speakers

Thursday, November 16, 2017

Eric Gabriel, MA, LPA, Psychologist

Eric Gabriel is a clinical psychologist and Director of Clinical Policy with RHA Health Services, North Carolina's largest provider of residential services for people with intellectual disabilities. As a psychologist, he specializes in management of challenging behaviors. He has also held quality assurance/corporate compliance responsibilities throughout most of his career. Eric served on the board of the North Carolina Providers Council, spending one year as board president. He became involved with special care dentistry a decade ago, and rapidly gained tremendous respect and admiration for its practitioners.

11:00 AM— Noon Medical Immobilization and Protective Stabilization

Attendees will:

- Have an understanding of federal ICF/IID regulations pertinent to dental care, use of mechanical restraints and the responsibilities of legal guardians and human rights committees
- Be familiar with necessary elements of informed consent and documentation of use of restraints for dental care
- Understand the psychological elements of learned aversion and hear ideas for reducing anxiety related to dental care

2017 Annual Meeting

November 15—17, 2017 Asheville, North Carolina

Speakers and Program Notes

Thursday, November 16, 2017

1:30—3:00 PM Panel Discussion MI/PS

Our expert panel will guide an afternoon discussion on issues that each of our members is facing with Medical Immobilization and Protective Stabilization. Dr. Bill Milner will facilitate the panel consisting of Dr. Mary Tepper, Ms. Beverly Holloway, Ms. Ellen Anderson, Dr. David Itzkoff and Dr. Kimberly Espinoza.

3:30—5:00 PM Pearls, Perils and Parables - Moderator - Dr. David Itzkoff

Let's learn from each other. Bring your favorite tip or product to share with the group. Do you have a case that was really unusual? Bring us your story and share what you learned with the with the group. What case still have you scratching your head? Bring it to our members and let's talk it over.

5:00—5:30 PM Special Care in Advocates Annual Business Meeting

5:45—9:00 PM President's Reception, Vanderbilt Room, Double Tree Hotel

President, Betsy White, invites you to the President's Reception. We are returning to our traditional format so please bring a gift from your hometown and, after a wonderful meal, we will have our door prize drawing. Cash bar will open at 5:45 PM and dinner will be served at 6:00 PM.

Ryan Roosekrans

Sponsored By Carestream Dental

Ryan has returned to Carestream Dental from the United Kingdom where he served as Managing Director of 360 Visualise Outpatient Diagnostic Imaging Centres. Prior to that, he spent four years with 360 Imaging managing two CBCT centers in Atlanta and a CBCT digital laboratory which processed CBCT scans arriving for surgical guides from throughout the USA. Ryan's start in dental imaging was with Kodak Dental Systems as an imaging specialist, he spent nine years training practices around the world in comprehensive dental imaging. His digital imaging background not only includes a strong CBCT focus, but is well rounded with digital photography and records, and full 2D imaging expertise, too. Ryan's unique background makes him a leader in CBCT in dentistry. He is a master implant planning technician in CS 3D Software, SimPlant, Straumann, and Nobel Clinician.

8:30—10:30 AM Cone Beam CT Technology

Get a comprehensive review of CBCT technology and why this has taken off with exponential growth in dental practices. CBCT systems are designed to allow for high resolution imaging of the hard tissues of the maxillofacial region, while allowing short scanning times and radiation doses significantly less than traditional scanning techniques. Come and learn the benefits of CBCT and where the technology is heading.

Grethe Whitman, RDH

Sponsored By Carivu

Grethe followed her dream of becoming a Dental Hygienist; a dream she had in junior high school. Every office in her career offered a new adventure, opportunity for change, and a step forward. Her last clinical position was as a Treatment Coordinator in a high end esthetic practice where she created a wellness program and developed the “WOW” new patient experience focused on education and patient interaction. Along, with being a Treatment Coordinator, Grethe was able to share her knowledge and expertise in other offices as a consultant and trainer. She had the occasion to write and speak for several dental manufacturers. Working with dental technology gave Grethe new opportunities. She left clinical to work for Patterson Dental as a Technology sales specialist. She has sold and supported Digital Dentistry for over 11 years. Grethe has her own company called “Toothwize”. She focuses on many facets of Dentistry. Her passion is educating, training, speaking, sales and truly helping dental offices be “successful beyond success”.

11:00 AM—Noon Caries Detection

DEXIS CariVu™ is a compact, portable caries detection device that uses patented transillumination technology to support the identification of occlusal, interproximal and recurrent carious lesions and cracks. CariVu uses no ionizing radiation. CariVu is a diagnostic aid for the detection of open or incipient carious lesions above the gingiva and for monitoring the progress of such lesions.

2017 Annual Meeting

November 15—17, 2017 Asheville, North Carolina

Speakers

Friday, November 17, 2017

Kelley Beard, RDH

Kelley has been a dental hygienist for over 25 years. Most of her career has been in public health. The past four years have been at the Black Mountain Neuro-Medical Treatment Center working with dementia residents and residents with intellectual developmental disabilities. While she was there, she developed and implemented the first oral care program in a NC state facility. Her program has garnered the attention from other NC state facilities and DHHS staff, survey consultants, the NCALA and the Oral Health Section of NC.. She is currently a dental hygienist at the MAHEC Dental Health Center and the Center for Advanced Training.

1:00—2:00 PM Oral Health Care Aide Program

Participants will learn :

- To share the experience of the oral care program at BMNTC
- To give ideas about how to implement a program in a care giving setting
- To share some data about the need of oral care in facilities
- To understand what will be the challenges and the pay offs with implementing an oral care program

2017 Annual Meeting

November 15—17, 2017 Asheville, North Carolina

Speakers

Friday, November 17, 2017

Dr. Mannie Levi and Dr. Doug Veazey

Dr. Levi and Dr. Veazey have extensive experience with the special needs population.

Over the past 30 years Dr. Levi has provided care to the developmentally disabled and mentally ill at the New Jersey Developmental Center in Totowa and the Essex County Hospital Center in Cedar Grove NJ. He also teaches at Middlesex County College, Brookdale University Medical Center and Morristown Memorial Hospital Center.

Doug is a graduate of UNC School of Dentistry and completed a two year General Practice Residency at Charity Hospital in New Orleans, LA. He retired in 2009 as Dental Director at Broughton Hospital, Morganton, NC after 31 years. He has worked part-time at Broughton Hospital and J. Iverson Riddle Developmental Center in Morganton. Since Feb 2015, worked part-time at Black Mountain NeuroTreatment Center which is a state hospital with Alzheimer and Developmental Disorder patients. He has served over 20+ years at Good Samaritan Dental Clinic, a non-profit which serves indigent patients in Burke County. In SAID, he has served as President and been active in many capacities.

2:00—3:30 PM Literature Review

Drs. Levi and Veazy have reviewed one hundred and twenty eight articles that meet the criteria for the Special Care Advocates in Dentistry Literature Review. They will highlight twelve articles that are relevant to special care practitioners. The list of identified articles is listed on the SAID website and will be added to the extensive historical list of articles. This is a tremendous resource for our members.
